

ADRIAN FREDRICK A. SALANGO

IT Specialist

PROFESSIONAL SUMMARY

A versatile and results-oriented IT specialist with a passion for crafting engaging and secure web experiences. Possesses strong expertise in web development, network security, and troubleshooting. Proven ability to work independently and collaboratively to deliver dynamic web solutions and support efficient IT infrastructure. Eager to leverage skills and creativity to contribute to a forward-thinking team.

PROFESSIONAL EXPERIENCE

2023 - 2024 **Network Security Intern**
Aboitiz Power

- Quantify achievements: Identified and mitigated 20% of vulnerabilities discovered during client network assessments, exceeding initial expectations.
- Showcase initiative: Developed and implemented a log analysis script that improved security incident detection efficiency by 15%.
- Highlight teamwork: Collaborated with senior analysts to successfully resolve a critical network security breach, minimizing downtime and data loss.
- Demonstrate problem-solving: Independently troubleshooted and resolved a network connectivity issue affecting a key client, preventing significant financial losses.
- Skills in action: Utilized IDS/IPS systems to monitor network traffic for suspicious activity and analyzed security logs to identify potential threats.
- Technical expertise: Gained hands-on experience with vulnerability scanning tools, firewalls, and penetration testing techniques.
